PREVIOUS EDITIONS

History

Born in 2016 from an idea of Daniele Danesi, Francesca Galeazzi and Daniele Natali, the initiatives “Sgranar per Colli” immediately received a great success thanks to the roots of the event well rooted in the territory, thanks to the beauty of places, thanks to the presence of important flavours of our place.

The previous 3 editions had a broad consensus: 1600 participants in the 2016, 2500 in the 2017 and more than 2800 in the 2018. We can count on the active collaboration of numerous associations, companies and Public entities - everyone with its own resources -

sharing the goal of enhancing the territory. Sgranar per colli has been called “the union between the different souls of a single place”.
